AGREEMENT made this _____ day of _____, _____,

between **STAFF WATER SUPPLY CORPORATION**, a corporation organized under the laws of the State of Texas (hereinafter called the Corporation) and _____

(hereinafter called the Applicant and/or Member),

Witness:

The Corporation shall sell and deliver water service to the Applicant and the Applicant shall purchase, receive, and/or reserve service from the Corporation in accordance with the bylaws and tariff of the Corporation as amended from time to time by the Board of Directors of the Corporation. Upon compliance with said policies, including payment of a Membership Fee, the Applicant qualifies for Membership as a new applicant or continued Membership as a transferee and thereby may hereinafter be called a Member.

The Member shall pay the Corporation for service hereunder as determined by the Corporation’s tariff and upon the terms and conditions set forth therein. The Applicant may request a copy of the Corporation’s tariff. A copy of this agreement shall be executed before service may be provided to the Applicant.

The Board of Directors shall have the authority to discontinue service and cancel the Membership of any Member not complying with any policy or not paying any utility fees or charges as required by the Corporation’s published rates, fees, and conditions of service. At any time service is discontinued, terminated or suspended, the Corporation shall not re-establish service unless it has a current, signed copy of this agreement and the member/applicant has complied with all terms and conditions that caused the service discontinuance/termination.

If this agreement is completed for the purpose of assigning utility service as a part of a rural domestic water system loan project contemplated with the Rural Development, an Applicant shall pay an Indication of Interest Fee in lieu of a Membership Fee for the purposes of determining:

- a. The number of taps to be considered in the design and
- b. The number of potential ratepayers considered in determining the financial feasibility of constructing
 - 1) a new water system or
 - 2) expanding the facilities of an existing water system.

The Applicant hereby agrees to obtain, utilize, and/or reserve service as soon as it is available. Applicant, upon qualification for service under the terms of the Corporation's policies, shall further qualify as a Member and the Indication of Interest Fee shall then be converted by the Corporation to a Membership Fee. Applicant further agrees to pay, upon becoming a Member, the monthly charges for such service as prescribed in the Corporation's tariff. Any breach of this agreement shall give cause for the Corporation to liquidate, as damages, the fees previously paid as an indication of interest. In addition to any Indication of Interest Fees forfeited, the Corporation may assess a lump sum of \$300.00 as liquidated damages to defray any losses incurred by the Corporation. If delivery of service to said location is deemed infeasible by the Corporation as a part of this project, the Applicant shall be denied Membership in the Corporation and the Indication of Interest Fee, less expenses, shall be refunded. The Applicant may re-apply for service at a later date under the terms and conditions of the Corporation's policies. For the purposes of this agreement, an Indication of Interest Fee shall be of an amount equal to the Corporation's Membership Fees.

All water shall be metered by meters to be furnished and installed by the Corporation. The meter connection is for the sole use of the Member or customer and is to provide service to only one (1) dwelling or one (1) business. Extension of pipe(s) to transfer utility service from one property to another, to share, resell, or submeter water to any other persons, dwellings, businesses, or property, etc., is prohibited.

The Corporation shall have the right to locate a water service meter and the pipe necessary to connect the meter on the Member's property at a point to be chosen by the Corporation, and shall have access to its property and equipment located upon Member's premises at all reasonable and necessary times for any purpose connected with or in the furtherance of its business operations, and upon discontinuance of service the Corporation shall have the right to remove any of its equipment from the Member's property. The Member shall install, at their own expense, any necessary service lines from the Corporation's facilities and equipment to the point of use, including any customer service isolation valves, backflow prevention devices, clean-outs, and other equipment as may be specified by the Corporation. The Corporation shall also have access to the Member's property for the purpose of inspecting for possible cross-connections, potential contamination hazards, illegal lead materials, and any other violations or possible violations of state and federal statutes and regulations relating to the federal [Safe Drinking Water Act](#) or [Chapter 341 of the Texas Health & Safety Code](#) or and the corporation's tariff and service policies. The Corporation may contact Applicant in the event of an emergency.

The Corporation's ownership and maintenance responsibility of water supply equipment shall end at the meter or other service equipment as installed. Therefore, all water usage registering upon and/or damages occurring to the metering equipment owned and maintained by the Corporation shall be subject to charges as determined by the Corporation's Tariff as amended from time to time by the Board of Directors.

The Corporation shall require each Member to have a cut-off valve located outside of the meter box and within two feet of the meter on the Member's side of the meter for purposes of isolating the Member's service pipeline and plumbing facilities from the Corporation's water pressure. The valve shall meet AWWA standards (a ball valve is preferred). The Member's use of the Corporation's curb stops or other similar valve for such purposes is prohibited. Any damage to the Corporation's equipment shall be subject to service charges. (This cut-off valve may be installed as a part of the original meter installation by the Corporation.)

The Corporation is responsible for protecting the drinking water supply from contamination or pollution which could result from improper practices. This service agreement serves as notice to each customer of the restrictions which are in place to provide this protection. The Corporation shall enforce these restrictions to ensure the public health and welfare. The following undesirable practices are prohibited by state regulations:

- a. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an airgap or an appropriate backflow prevention assembly in accordance with state regulations. RUS-TX Bulletin 1780-9 (5/2017)
Service Application and Agreement
- b. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the proper installation of an airgap or a reduced pressure-zone backflow prevention assembly and a service agreement must exist for annual inspection and testing by a certified backflow prevention device tester.
- c. No connection which allows condensing, cooling, or industrial process water to be returned to the public drinking water supply is permitted.
- d. No pipe or pipe fitting which contains more than 0.25% lead may be used for the installation or repair of any public water supply.
- e. No solder or flux which contains more than 0.2 % lead may be used for the installation or repair plumbing of any plumbing in a residential or nonresidential facility providing water for human consumption and connected to a public drinking water supply system.

The Corporation shall maintain a copy of this agreement as long as the Member and/or premises is connected to the public water system. The Member shall allow their property to be inspected for possible cross-connections, potential contamination hazards, and illegal lead materials. These inspections shall be conducted by the Corporation or its designated agent prior to initiating service and periodically thereafter. The inspections shall be conducted during the Corporation's normal business hours.

The Corporation shall notify the Member in writing of any cross-connections or other undesirable practices which have been identified during the initial or subsequent inspection. The Member shall immediately correct any undesirable practice on their premises. The Member shall, at their expense, properly install, test, and maintain any backflow prevention device required by the Corporation. Copies of all testing and maintenance records shall be provided to the Corporation as required. Failure to comply with the terms of this service agreement shall cause the Corporation to either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Member.

In the event the total water supply is insufficient to meet all of the Members, or in the event there is a shortage of water, the Corporation may initiate the Emergency Rationing Program as specified in the Corporation's Tariff. By execution of this agreement, the Applicant hereby shall comply with the terms of said program.

The Corporation's ownership and maintenance responsibility of water supply and metering equipment shall end at the meter.

By execution hereof, the Applicant shall hold the Corporation harmless from any and all claims for damages caused by service interruptions due to waterline breaks by utility or like contractors, tampering by other Member/users of the Corporation, normal failures of the system, or other events beyond the Corporation's control.

The Applicant shall grant to the Corporation permanent recorded easement(s) dedicated to the Corporation for the purpose of providing reasonable rights of access and use to allow the Corporation to construct, maintain, replace, upgrade, parallel, inspect, test and operate any facilities necessary to serve that Applicant as well as the Corporation's purposes in providing system-wide service for existing or future members.

By execution hereof, the Applicant shall guarantee payment of all other rates, fees, and charges due on any account for which said Applicant owns a Membership Certificate. Said guarantee shall pledge any and all Membership Fees against any balance due the Corporation. Liquidation of said Membership Fees shall give rise to discontinuance of service under the terms and conditions of the Corporation's tariff.

By execution hereof, the Applicant agrees that noncompliance with the terms of this agreement by said Applicant shall constitute denial or discontinuance of service until such time as the violation is corrected to the satisfaction of the Corporation.

Any misrepresentation of the facts by the Applicant on any of the four pages of this agreement shall result in discontinuance of service pursuant to the terms and conditions of the Corporation's tariff.

RIGHT-OF-WAY EASEMENT (Location of Easement Required)

KNOW **ALL** **MEN** **BY** **THESE** **PRESENTS,** that

and other good and valuable consideration paid by

_____, (“Grantee”), the receipt and sufficiency of which is hereby acknowledged, does hereby grant, bargain, sell, transfer, and convey to said Grantee, its successors, and assigns, a perpetual exclusive easement (the “Perpetual Easement”) and a temporary construction easement (the “Temporary Easement”), over and across the property more particularly described in instrument recorded in Vol._____, Page_____, Deed Records, _____ County, Texas. The Perpetual Easement and Temporary Construction Easement shall be collectively referred to as the “Easements”. It is expressly understood and agreed between the parties that the Easements shall be subject to and governed by the following provisions:

1. The Perpetual Easement hereby granted shall not exceed fifteen feet (15’) in width and shall be used only for the purposes of constructing, installing, and laying and thereafter accessing and using, operating, inspecting, repairing, maintaining, replacing, upgrading and removing water distribution lines [and/or sewer collection lines] and appurtenances and facilities (the “Facilities”) in that certain area of the tract of land owned by Grantor described on Exhibit “A” attached hereto and incorporated herein for all purposes (the “Easement Tract”). Grantee, its agents, employees, contractors, and representatives, shall have the right and privilege of ingress and egress across the Easement Tract as may be necessary for the purposes described herein. Grantee shall have the right to place new or additional Facilities within the Easement Tract.
2. In addition to the Perpetual Easement granted above, Grantor hereby grants the Temporary Construction Easement to Grantee over and across the Easement Tract and that certain area of the tract of land owned by Grantor that is fifteen feet (15’) in width and parallel to the boundary of the Easement Tract, as further described or depicted in Exhibit “A”, for purposes of ingress and egress and constructing and installing the Facilities. The Temporary Construction Easement shall automatically terminate one hundred eighty (180) days from the date such construction and installation of the Facilities is completed. Grantee agrees to use its reasonable best efforts to remove from the Temporary Construction Easement only such trees, brush, and shrubs as are reasonably necessary for Grantee to construct the Facilities.
3. Grantee shall have such other rights and benefits necessary and/or convenient for the full enjoyment and use of the rights herein granted, including without limitation, (a) the reasonable right of ingress and egress over and across lands owned by Grantor which are contiguous to the Easement Tract; (b) the reasonable right from time to time to remove any and all paving, undergrowth and other obstructions that may injure Grantee's Facilities or interfere with the construction, maintenance, inspection, operation, protection, repair, alteration, testing,

4. replacement, upgrading, relocation, substitution or removal thereof; and (c) the right to abandon-in-place any and all Facilities, such that Grantee shall have no obligation or liability to Grantor, or its successors or assigns, to move or remove any such Facilities.
5. In the event the city, county or state hereafter widens or relocates any public road so as to require the relocation of the Facilities as installed, Grantor further grants to Grantee an additional easement over and across the land described above for the purpose of laterally relocating the Facilities as may be necessary to clear the road improvements, which easement hereby granted shall be limited to a strip of land of fifteen feet (15') in width, the center line thereof being the Facilities as relocated.
6. The consideration recited herein shall constitute payment in full for all rights of Grantee, and Grantee will maintain such easement in a state of good repair and efficiency and will take all reasonable measures to restore the grounds and surfacing materials of the Easement Tract as close to the condition which existed as set forth in Exhibit "A" prior to Grantee's use as reasonably possible. Grantee is not responsible for restoration of landscaping, structures, pavement, or other improvements made by Grantor in, on and over the Easement Tract after the date of the grant made herein.
7. This agreement together with other provisions of this grant shall constitute a covenant running with the land for the benefit of the Grantee, its successors, and assigns. The Easements and the related rights and privileges herein granted shall be subject to all valid and subsisting encumbrances, conditions, covenants, restrictions, reservations, exceptions, rights-of-way and easements of record, including all laws, regulations and restrictions by municipal, county, state or other governmental authority applicable to and enforceable against the Easements.
8. Grantor does hereby bind itself, its successors and assigns, to WARRANT AND FOREVER DEFEND, all and singular, the easement herein granted to Grantee, or Grantee's successors and assigns, against every person whomsoever claiming, or to claim, the same or any part thereof.

IN WITNESS WHEREOF the said Grantors have executed this instrument this
